EDUCATION

Alva's Institute of Engineering And Technology

2022-2026

- Bachelor of Engineering in Artificial Intelligence and Machine Learning (PURSUING)
- CGPA:8.88

PROJECTS

- Data-Driven Study on the Dermatological Impact of Sunscreen Formulations
 - Conducted a comparative analysis of mineral and chemical sunscreen products to assess effectiveness and dermatological safety.
 - Identified high-risk ingredients associated with skin irritation, providing actionable insights to support informed consumer decisions.
- Analyzing the Impact of Road Accidents on Truck Drivers' Health and Safety
 - Performed data-driven analysis of road accidents involving truck drivers to uncover key risk factors and contributing conditions.
 - Identified major safety concerns and proposed data-backed preventive strategies to help reduce accident rates.
- Zomato Data analysis using Python libraries.
 - Performed exploratory data analysis (EDA) on Zomato restaurant dataset using Pandas, Matplotlib, and Seaborn to clean, preprocess, and visualize data trends, including ratings distribution, location-based performance, and cost analysis.
 - Derived business insights by identifying customer preferences, rating patterns, and popular cuisines, enabling data-driven recommendations for improving restaurant operations and customer engagement
- Converting PDF files to an Audiobook using Python libraries.

CERTIFICATIONS

- Data Structures and Applications - Codechef
- Analysis and Design of Algorithm - Codechef
- Problem Solving Through Programming in C - NPTEL
- Programming, Data Structures and Algorithms - NPTEL
- Data Analysis with Python - IBM
- Python for Data Science - IBM

SKILLS

- | | |
|-------------------|---|
| • Languages | PYTHON C MySQL |
| • Data & ML | Pandas Numpy Matplotlib Seaborn Scikit-Learn |
| • Developer Tools | VS-Code Jupyter Notebook Git IDLE Replit Anaconda |
| • Soft Skills | Leadership-Qualities Teamwork Problem-Solving |

LEADERSHIP & ACTIVITIES

- Hackathon Participation – Explored innovative problem-solving approaches and gained hands-on experience in collaborative development.
- Python Mentor, Pynocturnal Club – Conducted sessions to teach Python fundamentals and problem-solving to juniors.
- Event Lead, NVIDIA TechVerse – Led and organized the event, managing coordination and ensuring smooth execution.
